Funded Researcher Recruitment Announcement

We are recruiting researchers to work on a TÜBİTAK BİDEB supported project conducted in our laboratory.

Positions

Full-time (funded):

- Postdoctoral researcher
- PhD student
- MSc student
- Undergraduate student (volunteer)

Work environment

- Work will be carried out in our laboratory within SARGEM.
- Researchers will be provided with a dedicated or shared office space.

Start date

The project is planned to start during the Spring term of 2025-2026.

About the project

The project covers MIoT-oriented systems, IoT & sensor technologies, LoRaWAN-based communication infrastructures, network security, and anomaly detection.

Expected qualifications

- Background in a relevant engineering or science discipline
- Strong motivation to conduct research
- High motivation for academic publications and project development
- Preferably residing in Sakarya and nearby areas

Application & details

Please e-mail a short CV and your research interests.

Further details will be shared during the application process.
